

# The berlingotière

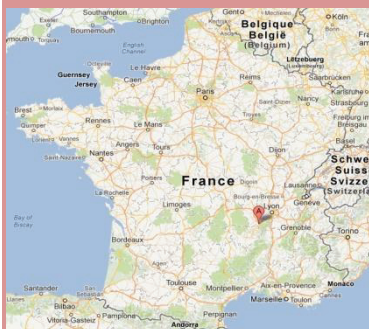

← The « Jassaranis » berlingotière is manufactured in our workshop in Roche-La-Molière, France.

← This manual berlingotière makes boiled sweets with the shape of the Carpentras boiled sweet . weighing approximately 4 grams.

← Our berlingotières are made with materials that are fit for the food industry.

We can offer you a berlingotière in two versions :

- A « PRO » version made with aluminum and INOX parts.
- An « ECO » version composed of plastics, aluminum and INOX parts.

O.M.G is a general mechanics company funded in 1987 near Saint-Etienne in La Talaudière ; now the company is based in Roche-La-Molière, France.

In 2012, O.M.G launched the berlingotière under the trade-mark « Jassaranis ».

Since many years, O.M.G works with the food industry, so the company gain experience in this line of business.

The berlingotière is a craft machine-tool and it is currently being manufactured in our workshop.

We can also offer you to repair your business and kitchen tools.
